The March of Dimes CARES

The mission of the March of Dimes is to improve the health of babies by preventing birth defects, premature birth and infant mortality. We carry out this mission in a variety of ways.

COMMUNITY

Our programs help moms-to-be in the United States have full-term pregnancies and healthy babies.

ADVOCACY

We advocate for legislation, services and programs that help moms in the United States get care and services to improve their health and the health of their babies.

RESEARCH

We research the serious problems that threaten our babies and work on treating and preventing them.

EDUCATION

From preconception health classes for families-to-be to continuing education for nurses, in every conceivable media, the March of Dimes provides resources to improve maternal and child health.

SUPPORT

Through our online community and in hospitals in the United States, we offer comfort and information to families with a newborn in intensive care.

You can play a vital role in helping us find solutions to combat prematurity and birth defects. We're making breakthroughs to improve the health of moms and babies, and together, we can save billions of dollars and tens of thousands of lives.

Annually in the United States:

- Nearly 4 million babies are born, and about 380,000 of those are preterm.
- 120,000 babies come into this world with a birth defect.
- Almost 23,500 babies die before reaching their first birthday.
- The societal cost of premature birth is \$26.2 billion.

In the last year:

- We funded research grants totaling nearly \$24 million.
- We invested \$5.56 million in maternal and child health community grants.
- More than 90,000 families with a newborn in intensive care were offered comfort and information through NICU Family Support®.
- 15,700 babies received lifesaving surfactant therapy, developed by March of Dimes researchers.
